Economy Profile of Iran, Islamic Rep.

*Doing Business 2020 Indicators
(in order of appearance in the document)*

Starting a business	Procedures, time, cost and paid-in minimum capital to start a limited liability company
Dealing with construction permits	Procedures, time and cost to complete all formalities to build a warehouse and the quality control and safety mechanisms in the construction permitting system
Getting electricity	Procedures, time and cost to get connected to the electrical grid, and the reliability of the electricity supply and the transparency of tariffs
Registering property	Procedures, time and cost to transfer a property and the quality of the land administration system
Getting credit	Movable collateral laws and credit information systems
Protecting minority investors	Minority shareholders' rights in related-party transactions and in corporate governance
Paying taxes	Payments, time, total tax and contribution rate for a firm to comply with all tax regulations as well as postfiling processes
Trading across borders	Time and cost to export the product of comparative advantage and import auto parts
Enforcing contracts	Time and cost to resolve a commercial dispute and the quality of judicial processes
Resolving insolvency	Time, cost, outcome and recovery rate for a commercial insolvency and the strength of the legal framework for insolvency
Employing workers	Flexibility in employment regulation and redundancy cost

About Doing Business

The *Doing Business* project provides objective measures of business regulations and their enforcement across 190 economies and selected cities at the subnational and regional level.

The *Doing Business* project, launched in 2002, looks at domestic small and medium-size companies and measures the regulations applying to them through their life cycle.

Doing Business captures several important dimensions of the regulatory environment as it applies to local firms. It provides quantitative indicators on regulation for starting a business, dealing with construction permits, getting electricity, registering property, getting credit, protecting minority investors, paying taxes, trading across borders, enforcing contracts and resolving insolvency. *Doing Business* also measures features of employing workers. Although *Doing Business* does not present rankings of economies on the employing workers indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business, it does present the data for these indicators.

By gathering and analyzing comprehensive quantitative data to compare business regulation environments across economies and over time, *Doing Business* encourages economies to compete towards more efficient regulation; offers measurable benchmarks for reform; and serves as a resource for academics, journalists, private sector researchers and others interested in the business climate of each economy.

In addition, *Doing Business* offers detailed [subnational studies](#), which exhaustively cover business regulation and reform in different cities and regions within a nation. These studies provide data on the ease of doing business, rank each location, and recommend reforms to improve performance in each of the indicator areas. Selected cities can compare their business regulations with other cities in the economy or region and with the 190 economies that *Doing Business* has ranked.

The first *Doing Business* study, published in 2003, covered 5 indicator sets and 133 economies. This year's study covers 11 indicator sets and 190 economies. Most indicator sets refer to a case scenario in the largest business city of each economy, except for 11 economies that have a population of more than 100 million as of 2013 (Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation and the United States) where *Doing Business* also collected data for the second largest business city. The data for these 11 economies are a population-weighted average for the 2 largest business cities. The project has benefited from feedback from governments, academics, practitioners and reviewers. The initial goal remains: to provide an objective basis for understanding and improving the regulatory environment for business around the world.

Outcome (0 as piecemeal sale and 1 as going concern)	0
Strength of insolvency framework index (0-16)	5.0

Starting a Business

This topic measures the number of procedures, time, cost and paid-in minimum capital requirement for a small- to medium-sized limited liability company to start up and formally operate in each economy's largest business city.

To make the data comparable across 190 economies, *Doing Business* uses a standardized business that is 100% domestically owned, has start-up capital equivalent to 10 times the income per capita, engages in general industrial or commercial activities and employs between 10 and 50 people one month after the commencement of operations, all of whom are domestic nationals. Starting a Business considers two types of local limited liability companies that are identical in all aspects, except that one company is owned by 5 married women and the other by 5 married men. The ranking of economies on the ease of starting a business is determined by sorting their scores for starting a business. These scores are the simple average of the scores for each of the component indicators.

The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Procedures to legally start and formally operate a company (number)</p> <ul style="list-style-type: none"> • Preregistration (for example, name verification or reservation, notarization) • Registration in the economy's largest business city • Postregistration (for example, social security registration, company seal) • Obtaining approval from spouse to start a business or to leave the home to register the company • Obtaining any gender specific document for company registration and operation or national identification card 	<p>To make the data comparable across economies, several assumptions about the business and the procedures are used. It is assumed that any required information is readily available and that the entrepreneur will pay no bribes.</p>
<p>Time required to complete each procedure (calendar days)</p> <ul style="list-style-type: none"> • Does not include time spent gathering information • Each procedure starts on a separate day (2 procedures cannot start on the same day) • Procedures fully completed online are recorded as ½ day • Procedure is considered completed once final document is received • No prior contact with officials 	<p>The business:</p> <ul style="list-style-type: none"> -Is a limited liability company (or its legal equivalent). If there is more than one type of limited liability company in the economy, the limited liability form most common among domestic firms is chosen. Information on the most common form is obtained from incorporation lawyers or the statistical office. -Operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. -Performs general industrial or commercial activities such as the production or sale to the public of goods or services. The business does not perform foreign trade activities and does not handle products subject to a special tax regime, for example, liquor or tobacco. It is not using heavily polluting production processes. -Does not qualify for investment incentives or any special benefits. -Is 100% domestically owned. -Has five business owners, none of whom is a legal entity. One business owner holds 30% of the company shares, two owners have 20% of shares each, and two owners have 15% of shares each. -Is managed by one local director. -Has between 10 and 50 employees one month after the commencement of operations, all of them domestic nationals. -Has start-up capital of 10 times income per capita. -Has an estimated turnover of at least 100 times income per capita. -Leases the commercial plant or offices and is not a proprietor of real estate. -Has an annual lease for the office space equivalent to one income per capita. -Is in an office space of approximately 929 square meters (10,000 square feet). -Has a company deed that is 10 pages long.
<p>Cost required to complete each procedure (% of income per capita)</p> <ul style="list-style-type: none"> • Official costs only, no bribes • No professional fees unless services required by law or commonly used in practice 	<p>The owners:</p> <ul style="list-style-type: none"> -Have reached the legal age of majority and are capable of making decisions as an adult. If there is no legal age of majority, they are assumed to be 30 years old. -Are in good health and have no criminal record. -Are married, the marriage is monogamous and registered with the authorities. -Where the answer differs according to the legal system applicable to the woman or man in question (as may be the case in economies where there is legal plurality), the answer used will be the one that applies to the majority of the population.
<p>Paid-in minimum capital (% of income per capita)</p> <ul style="list-style-type: none"> • Funds deposited in a bank or with third party before registration or up to 3 months after incorporation

*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures reflected here, see the summary below.

Details - Starting a Business in Iran, Islamic Rep. - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
♀ 1	<p>APPLIES TO WOMEN ONLY: Obtain husband's permission to open a business</p> <p><i>Agency: Domicile</i></p> <p>According to Civil Code Art. 1117, the husband can prevent his wife from occupations or technical work which is incompatible with the family interests or the dignity of himself or his wife. Therefore, a married woman should obtain the permission of her husband to open a business and commence the business incorporation process. Otherwise, the husband may ask the court to oblige the wife to cease her involvement with a business proved in the court as incompatible.</p> <p>While requirement to obtain husband's permission is not listed within the Commerce law and is not requested at the Company Registration Office, a married women should still obtain such a permission based on provisions of the Civil Code.</p>	1 day	no charge
2	<p>Obtain a criminal record clearance</p> <p><i>Agency: Police Electronic Service Centers</i></p> <p>A criminal record clearance must be obtained for appointing a company's directors. It is a practice adopted by Companies Registration Office to request criminal record clearance certificates during the company incorporation.</p>	7-10 days	IRR 75,000 (for criminal record) + IRR200,000 (to the account of the Justice Department in Tehran)
⇒ 3	<p>Reserve a unique company name</p> <p><i>Agency: Companies Registration Office</i></p> <p>Founders must provide online several suggested company names, preferably with 3 syllables. These names will be approved online in a few days, and then company may chose the preferred name and proceed with applying for incorporation.</p>	3-4 days	paid in procedure 5
4	<p>Register at the Companies Registration Office</p> <p><i>Agency: Companies Registration Office</i></p> <p>To register with the Companies Registration Office, the company must submit the following documents:</p> <ul style="list-style-type: none"> - Articles of association, signed by all shareholders - Declaration stating that all shares have been subscribed - Minutes of the shareholders' meeting, reflecting the election of the first directors and inspector(s) - Written statement accepting the position of directorship - Criminal record clearance certificate - National ID Card (Carte Melli) and birth certificates (certified copies) of the shareholders - Name of a mass circulation newspaper in which all company announcements will be published <p>Application files are assigned a bar code so that each internal desk that receives the file tracks its entrance and exit. The files are submitted online, and then mailed over post. Once the application is reviewed, the registrar will make an appointment for founders to come and sign the documents.</p> <p>The official registration fee of incorporation is calculated based on the Company's capital. The fee for any amount of capital exceeding IRR 500 million is fixed at the maximum rate of IRR 525,000. The schedule of fees can be found at the following link: http://sherkat.ssaa.ir/Portals/39/tarrif_typed.pdf</p>	5 days	paid in procedure 5
⇒ 5	<p>Pay name search and reservation fee and registration fee</p> <p><i>Agency: Bank</i></p> <p>The fees are paid at a commercial bank</p>	1 day	IRR 525,000 for registration and IRR 40,000 for name search and reservation
6	<p>Publish a notice of the company formation in the Official Gazette and the selected newspaper of general circulation</p> <p><i>Agency: Official Gazette and the relevant newspaper of mass circulation</i></p> <p>It is possible to directly publish the notice of the company formation through the Official Gazette and the selected newspaper or general circulation or submit it to the national post agent (located at the Registrar's office), which then forwards them to the Official Gazette and selected newspapers electronically. This process takes 15 to 30 days. However, businesses do not need to wait until the publication is completed to start their business. Upon submission of the registration notice to the official gazette for publication, a copy thereof is affixed with the stamp of the official gazette office indicating that the notice is in the process of publication. The notice published online is required to proceed with tax registration.</p>	2-3 days	IRR140,000 for official Gazette; IRR 240,000 for general circulation newspaper
7	<p>Notify the State Tax Affairs Organization (STAO) of the commencement of business activities, obtain confirmation from STAO and the Economic Code</p> <p><i>Agency: State Tax Affairs Organization</i></p> <p>As per Article 177, Note 3 of the Direct Tax Act, the new company must notify the State Tax Affairs Organization in writing of the commencement of its business operations within 4 months. Failure to do so will result in a fine and a deprivation of any applicable tax facilities and exemptions.</p>	25 days	no charge

8	<p>Register for VAT</p> <p><i>Agency</i> : Value Added Head Office of the State Tax Affairs Organisation</p> <p>The registration for VAT is needed for a company performing general industrial or commercial activities such as the case-study measured by Doing Business. The legal basis for such registration is the Law of Implementation of the Value Added Tax enacted in 1387 (as amended). Company needs to have tax identification in order to apply for VAT registration. There is no cost for VAT registration, and it can be completed online through www.evat.ir. The State Tax Affairs Organization is part of the Ministry of Economic Affairs and Finance.</p>	1 month	no charge
⇒ 9	<p>Retrieve the officially sealed books of account within 30 days of registration</p> <p><i>Agency</i> : Authorized Vendor</p> <p>Company needs to have the books sealed by the government to officially operate. Legally, the company needs to enter its daily operations in these books.</p> <p>The books are produced by Government and sold by private companies. The cost of the books depends on the number of pages of the official sealed books of account.</p> <p>The request for Sealing Account Books is done online at http://irsherkat.ssaa.ir/Design/RqstAdmission/PolompRequest.aspx . After the order is placed, company must receive the books in physical form.</p>	2 weeks	IRR 100,000
⇒ 10	<p>Pay the share certificate stamp duty within 60 days of company registration</p> <p><i>Agency</i> : Bank</p> <p>According to Article 48 of the Direct Taxation Act, the stamp duty must be paid within 60 days of company registration. It is paid at Bank Melli Iran or at the Tax Affairs Organization offices because it is an official government duty.</p>	1 day	0.05% of the par value of the subscribed share capital
⇒ 11	<p>Enroll workers in the social security program at the Iranian Labor Department and Obtain a workplace number</p> <p><i>Agency</i> : Social Security Organization</p> <p>Entrepreneur needs a tax ID for social security registration office (SSO). The manager/representative needs to go to the SSO with company registration documents, lease and employee list. After some time, the SSO will send an inspector to the office to check if the company exists, employees are working there, and all requirements are met. In a few days after this visit, the company will receive social security code. After obtaining this code, company can make the monthly social security payments online.</p>	13 days	no charge

♀ Applies to women only.

⇒ Takes place simultaneously with previous procedure.

Dealing with Construction Permits

This topic tracks the procedures, time and cost to build a warehouse—including obtaining necessary the licenses and permits, submitting all required notifications, requesting and receiving all necessary inspections and obtaining utility connections. In addition, the Dealing with Construction Permits indicator measures the building quality control index, evaluating the quality of building regulations, the strength of quality control and safety mechanisms, liability and insurance regimes, and professional certification requirements. The most recent round of data collection was completed in May 2019. [See the methodology for more information](#)

What the indicators measure

Procedures to legally build a warehouse (number)

- Submitting all relevant documents and obtaining all necessary clearances, licenses, permits and certificates
- Submitting all required notifications and receiving all necessary inspections
- Obtaining utility connections for water and sewerage
- Registering and selling the warehouse after its completion

Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day—though procedures that can be fully completed online are an exception to this rule
- Procedure is considered completed once final document is received
- No prior contact with officials

Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes

Building quality control index (0-15)

- Quality of building regulations (0-2)
- Quality control before construction (0-1)
- Quality control during construction (0-3)
- Quality control after construction (0-3)
- Liability and insurance regimes (0-2)
- Professional certifications (0-4)

Case study assumptions

To make the data comparable across economies, several assumptions about the construction company, the warehouse project and the utility connections are used.

The construction company (BuildCo):

- Is a limited liability company (or its legal equivalent) and operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Is 100% domestically and privately owned; has five owners, none of whom is a legal entity. Has a licensed architect and a licensed engineer, both registered with the local association of architects or engineers. BuildCo is not assumed to have any other employees who are technical or licensed experts, such as geological or topographical experts.
- Owns the land on which the warehouse will be built and will sell the warehouse upon its completion.

The warehouse:

- Will be used for general storage activities, such as storage of books or stationery.
- Will have two stories, both above ground, with a total constructed area of approximately 1,300.6 square meters (14,000 square feet). Each floor will be 3 meters (9 feet, 10 inches) high and will be located on a land plot of approximately 929 square meters (10,000 square feet) that is 100% owned by BuildCo, and the warehouse is valued at 50 times income per capita.
- Will have complete architectural and technical plans prepared by a licensed architect. If preparation of the plans requires such steps as obtaining further documentation or getting prior approvals from external agencies, these are counted as procedures.
- Will take 30 weeks to construct (excluding all delays due to administrative and regulatory requirements).

The water and sewerage connections:

- Will be 150 meters (492 feet) from the existing water source and sewer tap. If there is no water delivery infrastructure in the economy, a borehole will be dug. If there is no sewerage infrastructure, a septic tank in the smallest size available will be installed or built.
- Will have an average water use of 662 liters (175 gallons) a day and an average wastewater flow of 568 liters (150 gallons) a day. Will have a peak water use of 1,325 liters (350 gallons) a day and a peak wastewater flow of 1,136 liters (300 gallons) a day.
- Will have a constant level of water demand and wastewater flow throughout the year; will be 1 inch in diameter for the water connection and 4 inches in diameter for the sewerage connection.

Details - Dealing with Construction Permits in Iran, Islamic Rep. - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Hire an independent licensed engineering service office <i>Agency: Surveillance Company</i> BuildCo must hire an independent licensed office to undertake pre-construction clearances and supervise construction.</p> <p>The design and supervision team provides technical supervision through an architectural engineer for the duration of the construction work and directs the workers in accordance with the plans. This team reports on all construction activities to the engineer.</p>	1 day	IRR 572,697,294
2	<p>Apply for zoning approval <i>Agency: E-service office</i> BuildCo must obtain zoning permission from the e-service office. BuildCo submits the request and the e-service officer scans the request and supporting documents into the system. An inspection is scheduled usually with a couple of days at most. By the third or fourth day, the inspector will enter the information about the site into the system and it is transferred electronically to the Municipality for approval. The Municipality will usually approve the location permit request within 1 -- 2 days and send the approval back to the relevant e-service office. BuildCo can obtain the location approval within 10 days of submitting the application.</p> <p>Payment is made using an ATM card in POS system available in the e-service offices.</p>	1 day	no charge
3	<p>Receive site inspection <i>Agency: Municipality</i></p>	1 day	IRR 3,472,602
4	<p>Obtain zoning approval <i>Agency: E-service office</i></p>	10 days	IRR 8,453,900
5	<p>Obtain a fire safety approval <i>Agency: Central Fire Agency</i> BuildCo must obtain an approval on fire safety before applying for a construction permit. This requirement was introduced on October 9, 2016.</p>	30 days	no charge
6	<p>Request and obtain construction permit <i>Agency: Engineering and Technical Services Institution and Municipality</i> BuildCo submits the construction permit application through the e-service office. The e-service office will send the documents to the Municipality for approval. The application is reviewed and signed by the following people: Head of Masterplan (at the location approval stage), Head of Issuing Permission, Deputy of Urban and City Planning District, and the District Mayor. Once everyone has signed off, the approved application is sent back to the e-service office and the permit is issued. Applicants are informed by email, SMS, or telephone that their applications have been approved. The whole process takes about 1 month.</p> <p>Payment is made using an ATM card in POS system available in the e-service offices.</p>	30 days	IRR 10,625,000
7	<p>Receive inspection from Municipality - I <i>Agency: Municipality</i> Construction work does not stop when the inspections take place.</p>	1 day	no charge
8	<p>Receive inspection from Municipality - II <i>Agency: Municipality</i></p>	1 day	no charge
9	<p>Receive inspection from Municipality - III <i>Agency: Municipality</i></p>	1 day	no charge
10	<p>Receive inspection from Municipality - IV <i>Agency: Municipality</i></p>	1 day	no charge
11	<p>Receive inspection from Municipality - V <i>Agency: Municipality</i></p>	1 day	no charge

12	Obtain sewage connection <i>Agency : Tehran Water and Wastewater Company</i>	49 days	IRR 44,857,000
⇒ 13	Obtain water connection <i>Agency : Tehran Water and Wastewater Company</i>	21 days	IRR 74,019,000
14	Apply for building completion certificate <i>Agency : E-service office</i> Upon completion of construction works, BuildCo must submit the site file containing all the inspection reports signed by the supervising engineer at each stage of construction to the e-service office. The e-service office will scan and transmit the file to the Municipality which will assign an inspector to come and check that there have been no breaches to the construction permit. The inspector files a no-breach report at the municipality. The building completion certificate must be signed by: <ul style="list-style-type: none"> • The Head of Issuing Permission • The Head of Technical Supervision • Deputy for Urban Planning • The District Mayor Once all signatures are obtained, the approved building completion certificate is transmitted back to the relevant e-service office who will notify BuildCo.	1 day	no charge
15	Receive final inspection <i>Agency : Municipality</i>	1 day	no charge
16	Obtain building completion certificate <i>Agency : E-service office</i> The cost for the building completion certificate is IRR 3670 per sqm. Payment is made using an ATM card in POS system available in the e-service offices. Payment for the completion certificate must be made at the same time that the construction permit is requested.	1 day	IRR 3,472,602

⇒Takes place simultaneously with previous procedure.

Details - Dealing with Construction Permits in Iran, Islamic Rep. - Measure of Quality

	Answer	Score
Building quality control index (0-15)		13.5
Quality of building regulations index (0-2)		2.0
How accessible are building laws and regulations in your economy? (0-1)	Available online; Free of charge.	1.0
Which requirements for obtaining a building permit are clearly specified in the building regulations or on any accessible website, brochure or pamphlet? (0-1)	List of required documents; Fees to be paid; Required preapprovals.	1.0
Quality control before construction index (0-1)		1.0
Which third-party entities are required by law to verify that the building plans are in compliance with existing building regulations? (0-1)	Licensed engineer; Private firm.	1.0
Quality control during construction index (0-3)		2.0
What types of inspections (if any) are required by law to be carried out during construction? (0-2)	Inspections by external engineer or firm; Unscheduled inspections; Inspections at various phases.	1.0
Do legally mandated inspections occur in practice during construction? (0-1)	Mandatory inspections are always done in practice.	1.0
Quality control after construction index (0-3)		3.0
Is there a final inspection required by law to verify that the building was built in accordance with the approved plans and regulations? (0-2)	Yes, final inspection is done by government agency; Yes, external engineer submits report for final inspection.	2.0
Do legally mandated final inspections occur in practice? (0-1)	Final inspection always occurs in practice.	1.0
Liability and insurance regimes index (0-2)		1.5
Which parties (if any) are held liable by law for structural flaws or problems in the building once it is in use (Latent Defect Liability or Decennial Liability)? (0-1)	Architect or engineer.	0.5
Which parties (if any) are required by law to obtain an insurance policy to cover possible structural flaws or problems in the building once it is in use (Latent Defect Liability Insurance or Decennial Insurance)? (0-1)	No party is required by law to obtain insurance ; Construction company; Insurance is commonly taken in practice.	1.0
Professional certifications index (0-4)		4.0
What are the qualification requirements for the professional responsible for verifying that the architectural plans or drawings are in compliance with existing building regulations? (0-2)	Minimum number of years of experience; University degree in architecture or engineering; Being a registered architect or engineer; Passing a certification exam.	2.0

What are the qualification requirements for the professional who supervises the construction on the ground? (0-2)

Minimum number of years of experience; University degree in engineering, construction or construction management; Being a registered architect or engineer; Passing a certification exam.

2.0

⚡ Getting Electricity

This topic measures the procedures, time and cost required for a business to obtain a permanent electricity connection for a newly constructed warehouse. Additionally, the reliability of supply and transparency of tariffs index measures reliability of supply, transparency of tariffs and the price of electricity. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Procedures to obtain an electricity connection (number)

- Submitting all relevant documents and obtaining all necessary clearances and permits
- Completing all required notifications and receiving all necessary inspections
- Obtaining external installation works and possibly purchasing material for these works
- Concluding any necessary supply contract and obtaining final supply

Time required to complete each procedure (calendar days)

- Is at least 1 calendar day
- Each procedure starts on a separate day
- Does not include time spent gathering information
- Reflects the time spent in practice, with little follow-up and no prior contact with officials

Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes
- Value added tax excluded

The reliability of supply and transparency of tariffs index (0-8)

- Duration and frequency of power outages (0-3)
- Tools to monitor power outages (0-1)
- Tools to restore power supply (0-1)
- Regulatory monitoring of utilities' performance (0-1)
- Financial deterrents limiting outages (0-1)
- Transparency and accessibility of tariffs (0-1)

Price of electricity (cents per kilowatt-hour)*

- Price based on monthly bill for commercial warehouse in case study

*Note: *Doing Business* measures the price of electricity, but it is not included in the ease of doing business score nor in the ranking on the ease of getting electricity.

Case study assumptions

To make the data comparable across economies, several assumptions about the warehouse, the electricity connection and the monthly consumption are used.

The warehouse:

- Is owned by a local entrepreneur and is used for storage of goods.
- Is located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Is located in an area where similar warehouses are typically located and is in an area with no physical constraints. For example, the property is not near a railway.
- Is a new construction and is being connected to electricity for the first time.
- Has two stories with a total surface area of approximately 1,300.6 square meters (14,000 square feet). The plot of land on which it is built is 929 square meters (10,000 square feet).

The electricity connection:

- Is a permanent one with a three-phase, four-wire Y connection with a subscribed capacity of 140-kilo-volt-ampere (kVA) with a power factor of 1, when 1 kVA = 1 kilowatt (kW).
- Has a length of 150 meters. The connection is to either the low- or medium-voltage distribution network and is either overhead or underground, whichever is more common in the area where the warehouse is located and requires works that involve the crossing of a 10-meter road (such as by excavation or overhead lines) but are all carried out on public land. There is no crossing of other owners' private property because the warehouse has access to a road.
- Does not require work to install the internal wiring of the warehouse. This has already been completed up to and including the customer's service panel or switchboard and the meter base.

The monthly consumption:

- It is assumed that the warehouse operates 30 days a month from 9:00 a.m. to 5:00 p.m. (8 hours a day), with equipment utilized at 80% of capacity on average and that there are no electricity cuts (assumed for simplicity reasons) and the monthly energy consumption is 26,880 kilowatt-hours (kWh); hourly consumption is 112 kWh.
- If multiple electricity suppliers exist, the warehouse is served by the cheapest supplier.
- Tariffs effective in January of the current year are used for calculation of the price of electricity for the warehouse. Although January has 31 days, for calculation purposes only 30 days are used.

Getting Electricity - Iran, Islamic Rep.

Standardized Connection

Name of utility	Great Tehran Electricity Distribution Company (GTEDC)
Price of electricity (US cents per kWh)	5.2
City Covered	Tehran

Indicator	Iran, Islamic Rep.	Middle East & North Africa	OECD high income	Best Regulatory Performance
Procedures (number)	6	4.4	4.4	3 (28 Economies)
Time (days)	77	63.5	74.8	18 (3 Economies)
Cost (% of income per capita)	746.0	419.6	61.0	0.0 (3 Economies)
Reliability of supply and transparency of tariff index (0-8)	5	4.4	7.4	8 (26 Economies)

Figure - Getting Electricity in Iran, Islamic Rep. and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of getting electricity is determined by sorting their scores for getting electricity. These scores are the simple average of the scores for all the component indicators except the price of electricity.

Figure - Getting Electricity in Iran, Islamic Rep. - Procedure, Time and Cost

*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures

reflected here, see the summary below.

Figure - Getting Electricity in Iran, Islamic Rep. and comparator economies - Measure of Quality

Details - Getting Electricity in Iran, Islamic Rep. - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Submit application to GTEDC and await external inspection <i>Agency</i> : Great Tehran Electricity Distribution Company (GTEDC) The client needs to submit an application for electricity connection with Great Tehran Electricity Distribution Company (GTEDC) in person, and attach to that a certificate with the type of activity.</p>	9 calendar days	USD 0
⇒ 2	<p>Receive external inspection by GTEDC <i>Agency</i> : Great Tehran Electricity Distribution Company (GTEDC) After the application process, an engineer from the utility will visit the site to assess whether the grid will have enough capacity to accommodate the new connection. The site visit is necessary because the utility's maps are not up to date. Furthermore, the utility will also inspect to check that the estimated consumption submitted by the applicant is correct. Then they prepare an estimate of the connection fees for the client to later pay at a bank. The client also signs a contract with the utility at the time of applying.</p>	1 calendar day	IRR 5,000,000
3	<p>Obtain approval from GTEDC for design of private substation <i>Agency</i> : Great Tehran Electricity Distribution Company (GTEDC) In the case of 140 kVA a substation is most likely needed. A private electrical firm (possibly the same as the one that did the internal wiring) designs the substation and submits it to Great Tehran Electricity Distribution Company (GTEDC) for approval. The Great Tehran Electricity Distribution Company (GTEDC) has a unified design that the customer can use.</p>	20 calendar days	USD 6,000
4	<p>Obtain material for external works <i>Agency</i> : Market External works consist of the utility's contractor building a private distribution substation.</p> <p>Transformers are often missing in the utility's stock. The customer can buy the materials, or pay the market price to the utility and the utility will then buy the materials. For smaller projects, it is usually the utility who would buy the materials. For larger projects, the customer might want to buy the materials themselves. 140 kVA is considered a medium project. It is becoming more common with time for the utility to purchase the material.</p> <p>If the customer purchases the material, they will need to provide a certification (the utility provides customers with a detailed list of the materials to buy).</p>	7 calendar days	USD 5,000
5	<p>Obtain external works from GTEDC <i>Agency</i> : Great Tehran Electricity Distribution Company (GTEDC) Great Tehran Electricity Distribution Company (GTEDC)'s contractor completes the external connection works by installing substation and connecting it to its medium-voltage network.</p>	35 calendar days	USD 30,000
6	<p>Obtain meter installation and final connection from GTEDC <i>Agency</i> : Great Tehran Electricity Distribution Company (GTEDC) When the works are completed, Great Tehran Electricity Distribution Company (GTEDC) installs the meter and electricity is turned on immediately.</p>	6 calendar days	USD 700

⇒ Takes place simultaneously with previous procedure.

Details - Getting Electricity in Iran, Islamic Rep. - Measure of Quality

	Answer
Reliability of supply and transparency of tariff index (0-8)	5
Total duration and frequency of outages per customer a year (0-3)	1
System average interruption duration index (SAIDI)	7.0
System average interruption frequency index (SAIFI)	5.3
What is the minimum outage time (in minutes) that the utility considers for the calculation of SAIDI/SAIFI	5.0
Mechanisms for monitoring outages (0-1)	1
Does the distribution utility use automated tools to monitor outages?	Yes
Mechanisms for restoring service (0-1)	1
Does the distribution utility use automated tools to restore service?	Yes
Regulatory monitoring (0-1)	1
Does a regulator—that is, an entity separate from the utility—monitor the utility's performance on reliability of supply?	Yes
Financial deterrents aimed at limiting outages (0-1)	0
Does the utility either pay compensation to customers or face fines by the regulator (or both) if outages exceed a certain cap?	No
Communication of tariffs and tariff changes (0-1)	1
Are effective tariffs available online?	Yes
Link to the website, if available online	https://tvedc.ir/en/doing-business.html# http://tbtb.ir
Are customers notified of a change in tariff ahead of the billing cycle?	Yes

Note:

If the duration and frequency of outages is 100 or less, the economy is eligible to score on the Reliability of supply and transparency of tariff index.

If the duration and frequency of outages is not available, or is over 100, the economy is not eligible to score on the index.

If the minimum outage time considered for SAIDI/SAIFI is over 5 minutes, the economy is not eligible to score on the index.

Registering Property

This topic examines the steps, time and cost involved in registering property, assuming a standardized case of an entrepreneur who wants to purchase land and a building that is already registered and free of title dispute. In addition, the topic also measures the quality of the land administration system in each economy. The quality of land administration index has five dimensions: reliability of infrastructure, transparency of information, geographic coverage, land dispute resolution, and equal access to property rights. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Procedures to legally transfer title on immovable property (number)

- Preregistration procedures (for example, checking for liens, notarizing sales agreement, paying property transfer taxes)
- Registration procedures in the economy's largest business city.
- Postregistration procedures (for example, filling title with municipality)

Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day - though procedures that can be fully completed online are an exception to this rule
- Procedure is considered completed once final document is received
- No prior contact with officials

Cost required to complete each procedure (% of property value)

- Official costs only (such as administrative fees, duties and taxes).
- Value Added Tax, Capital Gains Tax and illicit payments are excluded

Quality of land administration index (0-30)

- Reliability of infrastructure index (0-8)
- Transparency of information index (0-6)
- Geographic coverage index (0-8)
- Land dispute resolution index (0-8)
- Equal access to property rights index (-2-0)

Case study assumptions

To make the data comparable across economies, several assumptions about the parties to the transaction, the property and the procedures are used.

The parties (buyer and seller):

- Are limited liability companies (or the legal equivalent).
- Are located in the periurban (that is, on the outskirts of the city but still within its official limits) area of the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Are 100% domestically and privately owned.
- Perform general commercial activities.

The property (fully owned by the seller):

- Has a value of 50 times income per capita, which equals the sale price.
- Is fully owned by the seller.
- Has no mortgages attached and has been under the same ownership for the past 10 years.
- Is registered in the land registry or cadastre, or both, and is free of title disputes.
- Is located in a periurban commercial zone (that is, on the outskirts of the city but still within its official limits), and no rezoning is required.
- Consists of land and a building. The land area is 557.4 square meters (6,000 square feet). A two-story warehouse of 929 square meters (10,000 square feet) is located on the land. The warehouse is 10 years old, is in good condition, has no heating system and complies with all safety standards, building codes and legal requirements. The property, consisting of land and building, will be transferred in its entirety.
- Will not be subject to renovations or additional construction following the purchase.
- Has no trees, natural water sources, natural reserves or historical monuments of any kind.
- Will not be used for special purposes, and no special permits, such as for residential use, industrial plants, waste storage or certain types of agricultural activities, are required.
- Has no occupants, and no other party holds a legal interest in it.

Registering Property - Iran, Islamic Rep.

Indicator	Iran, Islamic Rep.	Middle East & North Africa	OECD high income	Best Regulatory Performance
Procedures (number)	6	5.4	4.7	1 (5 Economies)
Time (days)	31	26.6	23.6	1 (2 Economies)

Details - Registering Property in Iran, Islamic Rep. - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p>Obtain a social security clearance certificate <i>Agency</i> : Social Security Organization A social security clearance certificate must be obtained from the Social Security Organization for properties being used for commercial purposes (Social Security Code § 37). An inspection of the premises is carried out to check if the premises can be used for commercial purposes. Obtaining a Social security clearance certificate is mandatory by law and the deadline to obtain this certificate is 20 days.</p>	20 days	no charge
⇒ 2	<p>Conduct a check on the property at the Real Estate Registration Department <i>Agency</i> : Real Estate Registration Department The buyer/seller visits the notary office, where the notary will electronically contact the Registry Office to ask if there are any obstacle to transfer this property. The copy of the title deeds or replica copy is valid for one month until the answer of the Land Registry is displayed on its official website.</p>	3 days	IRR 400,000; (IRR100,000 + IRR300,000 for urban areas IRR100,000 + IRR100,000 for rural areas)

⇒ 3	<p>Obtain a tax clearance certificate from the Tax Affairs Organization</p> <p><i>Agency</i> : Tax Affairs Organization</p> <p>When transferring a property, the seller must obtain specific tax forms and municipality duties from the notary's office (procedure 2). These tax forms are then submitted along with the required documents to the tax office, for the calculation of the taxes to be paid. This clearance serves two purposes: (i) to check whether there no outstanding taxes on this property. The verification process is still paper based, and it takes time for the officers to verify that there are no outstanding taxes. (ii) it is also to verify that the property transfer tax of 5% has been paid.</p> <p>The clearance of taxes is determined according to official regional values. The certificate is valid for 1 month. According to amended Article 1 of the Law on the Facilitation of Administration of Notary Public Office of July 2006, the public notaries must not register a property transaction before the receipt of the Tax Clearance Certificate (starting in March 20, 2016)</p>	12 days	<p>IRR 349,689,129.7; (Cost includes: Real Estate Transfer Tax + Commercial Goodwill Tax</p> <p>Real Estate Transfer tax is calculated by the following formula: $(M^2 \text{ of property} * \text{Real estate value for 2018 per } M^2) + (((M^2 \text{ for warehouse} * \text{Real Estate Value for 2018 per } M^2) * 30\% \text{ warehouse deduction}) * 80\% \text{ 10 year time deduction}) * 5\%$ transfer tax</p> <p>Commercial Goodwill tax is calculated by the following formula: $(\text{Case study property value} - (((M^2 \text{ for warehouse} * \text{Real Estate Value for 2018 per } M^2) * 30\% \text{ warehouse deduction}) * 80\% \text{ 10 year time deduction})) * 2\%$ Goodwill Tax</p> <p>*For each year increase of building age, its value shall be reduced 2%, thus multiplied by 80%</p> <p>*30% of land value is considered as building value</p> <p>*The type of materials used in construction of warehouse is not taken into account</p> <p>Article 59 of Direct Taxation Act of Iran 2015 - The final transfer of real estates, as well as the transfer of goodwill, shall be subject to taxation at the time when such transfers take place by the owner of the substance of the property or by the possessor of the right of goodwill. The basis of taxation shall be the taxable value in case of real estates and the price received by the owner or possessor of right in case of goodwill and the rates of tax will be 5% and 2%, respectively. The taxable values of real estates are determined by Real Estates Valuation Committee.</p> <p>Article 64 of Direct Taxation Act of Iran 2015 provides - Committee shall determine the taxable value amounting to 2 % of the average market value of the estates of the region in first year. This rate rises for 2 % each year up to 20 percent of the estates'</p>
-----	--	---------	---

⇒ 4	<p>Obtain settlement certificate for reconstruction duty from the Municipality <i>Agency</i> : Tax Affairs Organization</p> <p>A settlement certificate (tax clearance certificate) must be obtained from the Municipality to account for any and all the renovations made to the property. In practice municipality and village authority have to come to the premises and conduct inspection in person to determine the fee.</p>	5 days	no charge
5	<p>The deed is prepared and notarized at the notary public's office <i>Agency</i> : Public Notary</p> <p>Documents are sent electronically to the land registry (online), but the buyer and seller must be physically in the Notary office to sign the documents. The electronic platform is used by the Notary to do checks on property, communicate with Registry Office, prepare the deed, etc.. The draft agreement is prepared at the Notary office, it is then signed, and finger scanned/inked at the notary and then sent to the Land Registry.</p> <p>The notary public collects an amount according to legal tariffs determined by the Organization of Deeds and Properties Registration at the time of drawing up the deed, which includes writing fee and the registration fee. According to the decree 87/8039 of the Deputy Head of the Organization for the Registration of Deeds and Properties.</p>	1 day	<p>IRR 80,677,621.19; (Immovable property transaction fees according to the "Mantaghe Bandi" (Zoning) Price, for a property value:</p> <p>1) up to 2,000,000 IRR: fixed fee of 600,000 IRR 2) from 2,000,000 IRR to 10,000,000 IRR: 16.5% of the (cadastral) property value 3) from 10,000,000 IRR to 50,000,000 IRR: 11% of the (cadastral) property value 4) from 50,000,000 IRR to 100,000,000 IRR: 5.5% of the (cadastral) property value 5) from 100,000,000 IRR to 200,000,000 IRR: 3.3% of the (cadastral) property value 6) from 200,000,000 IRR to 500,000,000 IRR: 1.1% of the (cadastral) property value 7) from 500,000,000 IRR to sum of 1,000,000,000 IRR: 0.4% of the (cadastral) property value 8) above 1,000,000,000 IRR: 0.2% of the (cadastral) property value</p> <p>In addition, 500,000 fee for obtaining title in Procedure 6 + .5% registration fee)</p>
6	<p>The title is registered at the Real Estate Registration Department <i>Agency</i> : Real Estate Registration Department</p> <p>The title is registered at the Real Estate Registration Department by the notary public, who sends an abstract of the deed.</p> <p>Land Registry sends the deed to the buyer in a special envelope. Deed is not given in person, because the agency wants to have a record of the postal address of the buyer. Deeds need to be signed by different Land Administration officers.</p>	10 days	no charge

⇒Takes place simultaneously with previous procedure.

Details - Registering Property in Iran, Islamic Rep. - Measure of Quality

	Answer	Score
Quality of the land administration index (0-30)		16.0
Reliability of infrastructure index (0-8)		6.0
Type of land registration system in the economy:	Deed Registration System	
What is the institution in charge of immovable property registration?	The State Organization for Registration of Deeds and Properties	
In what format are past and newly issued land records kept at the immovable property registry of the largest business city of the economy—in a paper format or in a computerized format (scanned or fully digital)?	Computer/Scanned	1.0
Is there a comprehensive and functional electronic database for checking for encumbrances (liens, mortgages, restrictions and the like)?	Yes	1.0
Institution in charge of the plans showing legal boundaries in the largest business city:	Cadastre General Office at the state Organization for Registration of Deeds and Properties	
In what format are past and newly issued cadastral plans kept at the mapping agency of the largest business city of the economy—in a paper format or in a computerized format (scanned or fully digital)?	Computer/Scanned	1.0
Is there an electronic database for recording boundaries, checking plans and providing cadastral information (geographic information system)?	Yes	1.0
Is the information recorded by the immovable property registration agency and the cadastral or mapping agency kept in a single database, in different but linked databases or in separate databases?	Different databases but linked	1.0
Do the immovable property registration agency and cadastral or mapping agency use the same identification number for properties?	Yes	1.0
Transparency of information index (0-6)		1.0
Who is able to obtain information on land ownership at the agency in charge of immovable property registration in the largest business city?	Only intermediaries (notaries, lawyers, etc.)	0.0
Is the list of documents that are required to complete any type of property transaction made publicly available—and if so, how?	Yes, online	0.5
Link for online access:	http://ssaa.ir/Portals/0/%D9%85%D8%AF%D8%A7%D8%B1%D8%A9%20%D9%85%D9%88%D8%B1%D8%AF%20%D9%86%DB%8C%D8%A7%D8%B2%20%D8%AC%D9%87%D8%AA%20%D8%AA%D9%86%D8%B8%DB%8C%D9%85%20%D8%B3%D9%86%D8%AF%20%D8%A7%D9%86%D8%AA%D9%82%D8%A7%D9%84.pdf?ver=1397-03-29-163309-600	
Is the applicable fee schedule for any type of property transaction at the agency in charge of immovable property registration in the largest business city made publicly available—and if so, how?	Yes, online	0.5
Link for online access:	http://ssaa.ir/Default.aspx?tabid=63	
Does the agency in charge of immovable property registration agency formally commit to deliver a legally binding document that proves property ownership within a specific timeframe –and if so, how does it communicate the service standard?	Yes, in person	0.0

Link for online access:		
Is there a specific and independent mechanism for filing complaints about a problem that occurred at the agency in charge of immovable property registration?	No	0.0
Contact information:		
Are there publicly available official statistics tracking the number of transactions at the immovable property registration agency?	No	0.0
Number of property transfers in the largest business city in 2018:		
Who is able to consult maps of land plots in the largest business city?	Only intermediaries (notaries, lawyers, etc.)	0.0
Is the applicable fee schedule for accessing maps of land plots made publicly available—and if so, how?	Yes, in person	0.0
Link for online access:		
Does the cadastral/mapping agency formally specifies the timeframe to deliver an updated cadastral plan—and if so, how does it communicate the service standard?	No	0.0
Link for online access:		
Is there a specific and independent mechanism for filing complaints about a problem that occurred at the cadastral or mapping agency?	No	0.0
Contact information:		
Geographic coverage index (0-8)		4.0
Are all privately held land plots in the largest business city formally registered at the immovable property registry?	Yes	2.0
Are all privately held land plots in the economy formally registered at the immovable property registry?	No	0.0
Are all privately held land plots in the largest business city mapped?	Yes	2.0
Are all privately held land plots in the economy mapped?	No	0.0
Land dispute resolution index (0-8)		5.0
Does the law require that all property sale transactions be registered at the immovable property registry to make them opposable to third parties?	Yes	1.5
Legal basis:	Article 46 of the Properties and Deeds Registration code from 1922	
Is the system of immovable property registration subject to a state or private guarantee?	Yes	0.5
Type of guarantee:	State guarantee	
Legal basis:	Article 22 of the Properties and Deeds Registration code from 1922	
Is there a is a specific, out-of-court compensation mechanism to cover for losses incurred by parties who engaged in good faith in a property transaction based on erroneous information certified by the immovable property registry?	No	0.0
Legal basis:		
Does the legal system require a control of legality of the documents necessary for a property transaction (e.g., checking the compliance of contracts with requirements of the law)?	Yes	0.5
If yes, who is responsible for checking the legality of the documents?	Registrar; Notary;	
Does the legal system require verification of the identity of the parties to a property transaction?	Yes	0.5
If yes, who is responsible for verifying the identity of the parties?	Registrar; Notary;	
Is there a national database to verify the accuracy of government issued identity documents?	Yes	1.0

What is the Court of first instance in charge of a case involving a standard land dispute between two local businesses over tenure rights for a property worth 50 times gross national income (GNI) per capita and located in the largest business city?	First instance public court	
How long does it take on average to obtain a decision from the first-instance court for such a case (without appeal)?	Between 2 and 3 years	1.0
Are there publicly available statistics on the number of land disputes at the economy level in the first instance court?	No	0.0
Number of land disputes in the economy in 2018:		
Equal access to property rights index (-2-0)		0.0
Do unmarried men and unmarried women have equal ownership rights to property?	Yes	
Do married men and married women have equal ownership rights to property?	Yes	0.0

Getting Credit

This topic explores two sets of issues—the strength of credit reporting systems and the effectiveness of collateral and bankruptcy laws in facilitating lending. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Strength of legal rights index (0-12)

- Rights of borrowers and lenders through collateral laws (0-10)
- Protection of secured creditors' rights through bankruptcy laws (0-2)

Depth of credit information index (0-8)

- Scope and accessibility of credit information distributed by credit bureaus and credit registries (0-8)

Credit bureau coverage (% of adults)

- Number of individuals and firms listed in largest credit bureau as a percentage of adult population

Credit registry coverage (% of adults)

- Number of individuals and firms listed in credit registry as a percentage of adult population

Case study assumptions

Doing Business assesses the sharing of credit information and the legal rights of borrowers and lenders with respect to secured transactions through 2 sets of indicators. The depth of credit information index measures rules and practices affecting the coverage, scope and accessibility of credit information available through a credit registry or a credit bureau. The strength of legal rights index measures the degree to which collateral and bankruptcy laws protect the rights of borrowers and lenders and thus facilitate lending. For each economy it is first determined whether a unitary secured transactions system exists. Then two case scenarios, case A and case B, are used to determine how a nonpossessory security interest is created, publicized and enforced according to the law. Special emphasis is given to how the collateral registry operates (if registration of security interests is possible). The case scenarios involve a secured borrower, company ABC, and a secured lender, BizBank.

In some economies the legal framework for secured transactions will allow only case A or case B (not both) to apply. Both cases examine the same set of legal provisions relating to the use of movable collateral.

Several assumptions about the secured borrower (ABC) and lender (BizBank) are used:

- ABC is a domestic limited liability company (or its legal equivalent).
- ABC has up to 50 employees.
- ABC has its headquarters and only base of operations in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Both ABC and BizBank are 100% domestically owned.

The case scenarios also involve assumptions. In case A, as collateral for the loan, ABC grants BizBank a nonpossessory security interest in one category of movable assets, for example, its machinery or its inventory. ABC wants to keep both possession and ownership of the collateral. In economies where the law does not allow nonpossessory security interests in movable property, ABC and BizBank use a fiduciary transfer-of-title arrangement (or a similar substitute for nonpossessory security interests).

In case B, ABC grants BizBank a business charge, enterprise charge, floating charge or any charge that gives BizBank a security interest over ABC's combined movable assets (or as much of ABC's movable assets as possible). ABC keeps ownership and possession of the assets.

Getting Credit - Iran, Islamic Rep.

Strength of legal rights index (0-12)

2

Does an integrated or unified legal framework for secured transactions that extends to the creation, publicity and enforcement of functional equivalents to security interests in movable assets exist in the economy? No

Does the law allow businesses to grant a non possessory security right in a single category of movable assets, without requiring a specific description of collateral? No

Does the law allow businesses to grant a non possessory security right in substantially all of its assets, without requiring a specific description of collateral? No

May a security right extend to future or after-acquired assets, and does it extend automatically to the products, proceeds and replacements of the original assets? No

Is a general description of debts and obligations permitted in collateral agreements; can all types of debts and obligations be secured between parties; and can the collateral agreement include a maximum amount for which the assets are encumbered? No

Is a collateral registry in operation for both incorporated and non-incorporated entities, that is unified geographically and by asset type, with an electronic database indexed by debtor's name? No

Does a notice-based collateral registry exist in which all functional equivalents can be registered? No

Does a modern collateral registry exist in which registrations, amendments, cancellations and searches can be performed online by any interested third party? No

Are secured creditors paid first (i.e. before tax claims and employee claims) when a debtor defaults outside an insolvency procedure? Yes

Are secured creditors paid first (i.e. before tax claims and employee claims) when a business is liquidated? Yes

Are secured creditors subject to an automatic stay on enforcement when a debtor enters a court-supervised reorganization procedure? Does the law protect secured creditors' rights by providing clear grounds for relief from the stay and sets a time limit for it? No

Does the law allow parties to agree on out of court enforcement at the time a security interest is created? Does the law allow the secured creditor to sell the collateral through public auction or private tender, as well as, for the secured creditor to keep the asset in satisfaction of the debt? No

Figure - Credit Information in Iran, Islamic Rep. and comparator economies

Details - Credit Information in Iran, Islamic Rep.

Depth of credit information index (0-8)	Credit bureau	Credit registry	Score
Are data on both firms and individuals distributed?	Yes	Yes	1
Are both positive and negative credit data distributed?	Yes	Yes	1
Are data from retailers or utility companies - in addition to data from banks and financial institutions - distributed?	Yes	No	1
Are at least 2 years of historical data distributed? (Credit bureaus and registries that distribute more than 10 years of negative data or erase data on defaults as soon as they are repaid obtain a score of 0 for this component.)	Yes	No	1
Are data on loan amounts below 1% of income per capita distributed?	Yes	Yes	1
By law, do borrowers have the right to access their data in the credit bureau or credit registry?	No	Yes	1
Can banks and financial institutions access borrowers' credit information online (for example, through an online platform, a system-to-system connection or both)?	Yes	Yes	1
Are bureau or registry credit scores offered as a value-added service to help banks and financial institutions assess the creditworthiness of borrowers?	Yes	No	1

Note: An economy receives a score of 1 if there is a "yes" to either bureau or registry. If the credit bureau or registry is not operational or covers less than 5% of the adult population, the total score on the depth of credit information index is 0.

Coverage	Credit bureau	Credit registry
Number of individuals	34,749,962	34,500,109
Number of firms	307,935	343,583
Total	35,057,897	34,843,692
Percentage of adult population	60.7	60.3

Protecting Minority Investors

This topic measures the strength of minority shareholder protections against misuse of corporate assets by directors for their personal gain as well as shareholder rights, governance safeguards and corporate transparency requirements that reduce the risk of abuse. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

- **Extent of disclosure index (0-10):** Disclosure, review, and approval requirements for related-party transactions
- **Extent of director liability index (0-10):** Ability of minority shareholders to sue and hold interested directors liable for prejudicial related-party transactions; Available legal remedies (damages, disgorgement of profits, disqualification from managerial position(s) for one year or more, rescission of the transaction)
- **Ease of shareholder suits index (0-10):** Access to internal corporate documents; Evidence obtainable during trial and allocation of legal expenses
- **Extent of conflict of interest regulation index (0-30):** Sum of the extent of disclosure, extent of director liability and ease of shareholder suits indices
- **Extent of shareholder rights index (0-6):** Shareholders' rights and role in major corporate decisions
- **Extent of ownership and control index (0-7):** Governance safeguards protecting shareholders from undue board control and entrenchment
- **Extent of corporate transparency index (0-7):** Corporate transparency on ownership stakes, compensation, audits and financial prospects
- **Extent of shareholder governance index (0-20):** Sum of the extent of shareholders rights, extent of ownership and control and extent of corporate transparency indices
- **Strength of minority investor protection index (0-50):** Sum of the extent of conflict of interest regulation and extent of shareholder governance indices

Case study assumptions

To make the data comparable across economies, a case study uses several assumptions about the business and the transaction.

The business (Buyer):

- Is a publicly traded corporation listed on the economy's most important stock exchange.
- Has a board of directors and a chief executive officer (CEO) who may legally act on behalf of Buyer where permitted, even if this is not specifically required by law.
- Has a supervisory board in economies with a two-tier board system on which Mr. James appointed 60% of the shareholder-elected members.
- Has not adopted bylaws or articles of association that go beyond the minimum requirements. Does not follow codes, principles, recommendations or guidelines that are not mandatory.
- Is a manufacturing company with its own distribution network.

The transaction involves the following details:

- Mr. James owns 60% of Buyer, sits on Buyer's board of directors and elected two directors to Buyer's five-member board.
- Mr. James also owns 90% of Seller, a company that operates a chain of retail hardware stores. Seller recently closed a large number of its stores.
- Mr. James proposes that Buyer purchase Seller's unused fleet of trucks to expand Buyer's distribution of its food products, a proposal to which Buyer agrees. The price is equal to 10% of Buyer's assets and is higher than the market value.
- The proposed transaction is part of the company's principal activity and is not outside the authority of the company.
- Buyer enters into the transaction. All required approvals are obtained, and all required disclosures made—that is, the transaction was not entered into fraudulently.
- The transaction causes damages to Buyer. Shareholders sue Mr. James and the executives and directors that approved the transaction.

Before suing, can shareholders representing 10% of Buyer's share capital inspect the transaction documents? (0-1)	No	0.0
Can the plaintiff obtain any documents from the defendant and witnesses at trial? (0-3)	No	0.0
Can the plaintiff request categories of documents from the defendant without identifying specific ones? (0-1)	No	0.0
Can the plaintiff directly question the defendant and witnesses at trial? (0-2)	No	0.0
Is the level of proof required for civil suits lower than that of criminal cases? (0-1)	No	0.0
Can shareholder plaintiffs recover their legal expenses from the company? (0-2)	Yes if successful	1.0
Extent of shareholder governance index (0-20)		
Extent of shareholder rights index (0-6)		3.0
Does the sale of 51% of Buyer's assets require shareholder approval?	No	0.0
Can shareholders representing 10% of Buyer's share capital call for a meeting of shareholders?	No	0.0
Must Buyer obtain its shareholders' approval every time it issues new shares?	No	0.0
Do shareholders automatically receive preemption rights every time Buyer issues new shares?	Yes	1.0
Do shareholders elect and dismiss the external auditor?	Yes	1.0
Are changes to the rights of a class of shares only possible if the holders of the affected shares approve?	Yes	1.0
Extent of ownership and control index (0-7)		3.0
Is it forbidden to appoint the same individual as CEO and chairperson of the board of directors?	No	0.0

Must the board of directors include independent and nonexecutive board members?	No	0.0
Can shareholders remove members of the board of directors without cause before the end of their term?	Yes	1.0
Must the board of directors include a separate audit committee exclusively comprising board members?	Yes	1.0
Must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	No	0.0
Must Buyer pay declared dividends within a maximum period set by law?	Yes	1.0
Is a subsidiary prohibited from acquiring shares issued by its parent company?	No	0.0
Extent of corporate transparency index (0-7)		2.0
Must Buyer disclose direct and indirect beneficial ownership stakes representing 5%?	No	0.0
Must Buyer disclose information about board members' primary employment and directorships in other companies?	No	0.0
Must Buyer disclose the compensation of individual managers?	No	0.0
Must a detailed notice of general meeting be sent 21 days before the meeting?	No	0.0
Can shareholders representing 5% of Buyer's share capital put items on the general meeting agenda?	No	0.0
Must Buyer's annual financial statements be audited by an external auditor?	Yes	1.0
Must Buyer disclose its audit reports to the public?	Yes	1.0

Paying Taxes

This topic records the taxes and mandatory contributions that a medium-size company must pay or withhold in a given year, as well as the administrative burden of paying taxes and contributions and complying with postfiling procedures (VAT refund and tax audit). The most recent round of data collection for the project was completed in May 2019 covering for the Paying Taxes indicator calendar year 2018 (January 1, 2018 – December 31, 2018). [See the methodology for more information.](#)

What the indicators measure

Tax payments for a manufacturing company in 2018 (number per year adjusted for electronic and joint filing and payment)

- Total number of taxes and contributions paid or withheld, including consumption taxes (value added tax, sales tax or goods and service tax)
- Method and frequency of filing and payment

Time required to comply with 3 major taxes (hours per year)

- Collecting information, computing tax payable
- Preparing separate tax accounting books, if required
- Completing tax return, filing with agencies
- Arranging payment or withholding

Total tax and contribution rate (% of commercial profits)

- Profit or corporate income tax
- Social contributions, labor taxes paid by employer
- Property and property transfer taxes
- Dividend, capital gains, financial transactions taxes
- Waste collection, vehicle, road and other taxes

Postfiling Index

- Time to comply with VAT refund (hours)
- Time to obtain VAT refund (weeks)
- Time to comply with a corporate income tax correction (hours)
- Time to complete a corporate income tax correction (weeks)

Case study assumptions

Using a case scenario, *Doing Business* records taxes and mandatory contributions a medium size company must pay in a year, and measures the administrative burden of paying taxes, contributions and dealing with postfiling processes. Information is also compiled on frequency of filing and payments, time taken to comply with tax laws, time taken to comply with the requirements of postfiling processes and time waiting.

To make data comparable across economies, several assumptions are used:

- TaxpayerCo is a medium-size business that started operations on January 1, 2017. It produces ceramic flowerpots and sells them at retail. All taxes and contributions recorded are paid in the second year of operation (calendar year 2018). Taxes and mandatory contributions are measured at all levels of government.

The VAT refund process:

- In June 2018, TaxpayerCo. makes a large capital purchase: the value of the machine is 65 times income per capita of the economy. Sales are equally spread per month (1,050 times income per capita divided by 12) and cost of goods sold are equally expensed per month (875 times income per capita divided by 12). The machinery seller is registered for VAT and excess input VAT incurred in June will be fully recovered after four consecutive months if the VAT rate is the same for inputs, sales and the machine and the tax reporting period is every month. Input VAT will exceed Output VAT in June 2018.

The corporate income tax audit process:

- An error in calculation of income tax liability (for example, use of incorrect tax depreciation rates, or incorrectly treating an expense as tax deductible) leads to an incorrect income tax return and a corporate income tax underpayment. TaxpayerCo. discovered the error and voluntarily notified the tax authority. The value of the underpaid income tax liability is 5% of the corporate income tax liability due. TaxpayerCo. submits corrected information after the deadline for submitting the annual tax return, but within the tax assessment period.

Paying Taxes - Iran, Islamic Rep.

Figure - Paying Taxes in Iran, Islamic Rep. - Score

Figure - Paying Taxes in Iran, Islamic Rep. and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of paying taxes is determined by sorting their scores for paying taxes. These scores are the simple average of the scores for each of the component indicators, with a threshold and a nonlinear transformation applied to one of the component indicators, the total tax and contribution rate. The threshold is defined as the total tax and contribution rate at the 15th percentile of the overall distribution for all years included in the analysis up to and including Doing Business 2015, which is 26.1%. All economies with a total tax and contribution rate below this threshold receive the same score as the economy at the threshold.

	Answer	Score
Postfiling index (0-100)		19.0
VAT refunds		
Does VAT exist?	Yes	
Does a VAT refund process exist per the case study?	Yes	
Restrictions on VAT refund process	none	
Percentage of cases exposed to a VAT audit (%)	75% - 100%	
Is there a mandatory carry forward period?	No	
Time to comply with VAT refund (hours)	51.0	0.0
Time to obtain VAT refund (weeks)	39.0	31.9
Corporate income tax audits		
Does corporate income tax exist?	yes	
Percentage of cases exposed to a corporate income tax audit (%)	75% - 100%	
Time to comply with a corporate income tax correction (hours)	32.0	44.0
Time to complete a corporate income tax correction (weeks)	38.9	0.0

Notes: Names of taxes have been standardized. For instance income tax, profit tax, tax on company's income are all named corporate income tax in this table.

The hours for VAT include all the VAT and sales taxes applicable.

The hours for Social Security include all the hours for labor taxes and mandatory contributions in general.

The postfiling index is the average of the scores on time to comply with VAT refund, time to obtain a VAT refund, time to comply with a corporate income tax correction and time to complete a corporate income tax correction.

N/A = Not applicable.

Trading across Borders

Doing Business records the time and cost associated with the logistical process of exporting and importing goods. *Doing Business* measures the time and cost (excluding tariffs) associated with three sets of procedures—documentary compliance, border compliance and domestic transport—within the overall process of exporting or importing a shipment of goods. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Documentary compliance

- Obtaining, preparing and submitting documents during transport, clearance, inspections and port or border handling in origin economy
- Obtaining, preparing and submitting documents required by destination economy and any transit economies
- Covers all documents required by law and in practice, including electronic submissions of information

Border compliance

- Customs clearance and inspections
- Inspections by other agencies (if applied to more than 20% of shipments)
- Handling and inspections that take place at the economy's port or border

Domestic transport

- Loading or unloading of the shipment at the warehouse or port/border
- Transport between warehouse and port/border
- Traffic delays and road police checks while shipment is en route

Case study assumptions

To make the data comparable across economies, a few assumptions are made about the traded goods and the transactions:

Time: Time is measured in hours, and 1 day is 24 hours (for example, 22 days are recorded as $22 \times 24 = 528$ hours). If customs clearance takes 7.5 hours, the data are recorded as is. Alternatively, suppose documents are submitted to a customs agency at 8:00a.m., are processed overnight and can be picked up at 8:00a.m. the next day. The time for customs clearance would be recorded as 24 hours because the actual procedure took 24 hours.

Cost: Insurance cost and informal payments for which no receipt is issued are excluded from the costs recorded. Costs are reported in U.S. dollars. Contributors are asked to convert local currency into U.S. dollars based on the exchange rate prevailing on the day they answer the questionnaire. Contributors are private sector experts in international trade logistics and are informed about exchange rates.

Assumptions of the case study:

- For all 190 economies covered by *Doing Business*, it is assumed a shipment is in a warehouse in the largest business city of the exporting economy and travels to a warehouse in the largest business city of the importing economy.
- It is assumed each economy imports 15 metric tons of containerized auto parts (HS 8708) from its natural import partner—the economy from which it imports the largest value (price times quantity) of auto parts. It is assumed each economy exports the product of its comparative advantage (defined by the largest export value) to its natural export partner—the economy that is the largest purchaser of this product. Shipment value is assumed to be \$50,000.
- The mode of transport is the one most widely used for the chosen export or import product and the trading partner, as is the seaport or land border crossing.
- All electronic information submissions requested by any government agency in connection with the shipment are considered to be documents obtained, prepared and submitted during the export or import process.
- A port or border is a place (seaport or land border crossing) where merchandise can enter or leave an economy.
- Relevant government agencies include customs, port authorities, road police, border guards, standardization agencies, ministries or departments of agriculture or industry, national security agencies and any other government authorities.

Enforcing Contracts

The enforcing contracts indicator measures the time and cost for resolving a commercial dispute through a local first-instance court, and the quality of judicial processes index, evaluating whether each economy has adopted a series of good practices that promote quality and efficiency in the court system. The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Time required to enforce a contract through the courts (calendar days)</p> <ul style="list-style-type: none"> • Time to file and serve the case • Time for trial and to obtain the judgment • Time to enforce the judgment <p>Cost required to enforce a contract through the courts (% of claim value)</p> <ul style="list-style-type: none"> • Average attorney fees • Court costs • Enforcement costs <p>Quality of judicial processes index (0-18)</p> <ul style="list-style-type: none"> • Court structure and proceedings (-1-5) • Case management (0-6) • Court automation (0-4) • Alternative dispute resolution (0-3) 	<p>The dispute in the case study involves the breach of a sales contract between two domestic businesses. The case study assumes that the court hears an expert on the quality of the goods in dispute. This distinguishes the case from simple debt enforcement.</p> <p>To make the data on the time and comparable across economies, several assumptions about the case are used:</p> <ul style="list-style-type: none"> - The dispute concerns a lawful transaction between two businesses (Seller and Buyer), both located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city. - The Buyer orders custom-made furniture, then fails to pay alleging that the goods are not of adequate quality. - The value of the dispute is 200% of the income per capita or the equivalent in local currency of USD 5,000, whichever is greater. - The Seller sues the Buyer before the court with jurisdiction over commercial cases worth 200% of income per capita or \$5,000 whichever is greater. - The Seller requests the pretrial attachment of the defendant's movable assets to secure the claim. - The claim is disputed on the merits because of Buyer's allegation that the quality of the goods was not adequate. - The judge decides in favor of the seller; there is no appeal. - The Seller enforces the judgment through a public sale of the Buyer's movable assets.

Trial and judgment	295
Enforcement of judgment	180
Cost (% of claim value)	19.3
Attorney fees	10
Court fees	4.3
Enforcement fees	5
Quality of judicial processes index (0-18)	5.0
Court structure and proceedings (-1-5)	0.5
Case management (0-6)	1.0
Court automation (0-4)	1.0
Alternative dispute resolution (0-3)	2.5

Details - Enforcing Contracts in Iran, Islamic Rep. - Measure of Quality

	Answer	Score
Quality of judicial processes index (0-18)		5.0
Court structure and proceedings (-1-5)		0.5
1. Is there a court or division of a court dedicated solely to hearing commercial cases?	No	0.0
2. Small claims court		0.0
2.a. Is there a small claims court or a fast-track procedure for small claims?	No	
2.b. If yes, is self-representation allowed?	n.a.	
3. Is pretrial attachment available?	Yes	1.0
4. Are new cases assigned randomly to judges?	Yes, but manual	0.5
5. Does a woman's testimony carry the same evidentiary weight in court as a man's?	No	-1.0
Case management (0-6)		1.0
1. Time standards		0.0
1.a. Are there laws setting overall time standards for key court events in a civil case?	Yes	
1.b. If yes, are the time standards set for at least three court events?	No	
1.c. Are these time standards respected in more than 50% of cases?	Yes	
2. Adjournments		1.0
2.a. Does the law regulate the maximum number of adjournments that can be granted?	Yes	
2.b. Are adjournments limited to unforeseen and exceptional circumstances?	Yes	
2.c. If rules on adjournments exist, are they respected in more than 50% of cases?	Yes	
3. Can two of the following four reports be generated about the competent court: (i) time to disposition report; (ii) clearance rate report; (iii) age of pending cases report; and (iv) single case progress report?	No	0.0
4. Is a pretrial conference among the case management techniques used before the competent court?	No	0.0
5. Are there any electronic case management tools in place within the competent court for use by judges?	No	0.0
6. Are there any electronic case management tools in place within the competent court for use by lawyers?	No	0.0
Court automation (0-4)		1.0
1. Can the initial complaint be filed electronically through a dedicated platform within the competent court?	No	0.0
2. Is it possible to carry out service of process electronically for claims filed before the competent court?	Yes	1.0
3. Can court fees be paid electronically within the competent court?	No	0.0
4. Publication of judgments		0.0
4.a. Are judgments rendered in commercial cases at all levels made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
4.b. Are judgments rendered in commercial cases at the appellate and supreme court level made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
Alternative dispute resolution (0-3)		2.5
1. Arbitration		1.5
1.a. Is domestic commercial arbitration governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all its aspects?	Yes	
1.b. Are there any commercial disputes—aside from those that deal with public order or public policy—that cannot be submitted to arbitration?	No	
1.c. Are valid arbitration clauses or agreements usually enforced by the courts?	Yes	

2. Mediation/Conciliation	1.0
2.a. Is voluntary mediation or conciliation available?	Yes
2.b. Are mediation, conciliation or both governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all their aspects (for example, definition, aim and scope of application, design)?	Yes
2.c. Are there financial incentives for parties to attempt mediation or conciliation (i.e., if mediation or conciliation is successful, a refund of court filing fees, income tax credits or the like)?	No

Resolving Insolvency

Doing Business studies the time, cost and outcome of insolvency proceedings involving domestic legal entities. These variables are used to calculate the recovery rate, which is recorded as cents on the dollar recovered by secured creditors through reorganization, liquidation or debt enforcement (foreclosure or receivership) proceedings. To determine the present value of the amount recovered by creditors, *Doing Business* uses the lending rates from the International Monetary Fund, supplemented with data from central banks and the Economist Intelligence Unit. The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p>Time required to recover debt (years)</p> <ul style="list-style-type: none"> • Measured in calendar years • Appeals and requests for extension are included <p>Cost required to recover debt (% of debtor's estate)</p> <ul style="list-style-type: none"> • Measured as percentage of estate value • Court fees • Fees of insolvency administrators • Lawyers' fees • Assessors' and auctioneers' fees • Other related fees <p>Outcome</p> <ul style="list-style-type: none"> • Whether business continues operating as a going concern or business assets are sold piecemeal <p>Recovery rate for creditors</p> <ul style="list-style-type: none"> • Measures the cents on the dollar recovered by secured creditors • Outcome for the business (survival or not) determines the maximum value that can be recovered • Official costs of the insolvency proceedings are deducted • Depreciation of furniture is taken into account • Present value of debt recovered <p>Strength of insolvency framework index (0- 16)</p> <ul style="list-style-type: none"> • Sum of the scores of four component indices: • Commencement of proceedings index (0-3) • Management of debtor's assets index (0-6) • Reorganization proceedings index (0-3) • Creditor participation index (0-4) 	<p>To make the data on the time, cost and outcome comparable across economies, several assumptions about the business and the case are used:</p> <ul style="list-style-type: none"> - A hotel located in the largest city (or cities) has 201 employees and 50 suppliers. The hotel experiences financial difficulties. - The value of the hotel is 100% of the income per capita or the equivalent in local currency of USD 200,000, whichever is greater. - The hotel has a loan from a domestic bank, secured by a mortgage over the hotel's real estate. The hotel cannot pay back the loan, but makes enough money to operate otherwise. <p>In addition, <i>Doing Business</i> evaluates the quality of legal framework applicable to judicial liquidation and reorganization proceedings and the extent to which best insolvency practices have been implemented in each economy covered.</p>

Resolving Insolvency - Iran, Islamic Rep.

Indicator	Iran, Islamic Rep.	Middle East & North Africa	OECD high income	Best Regulatory Performance
Recovery rate (cents on the dollar)	36.1	27.3	70.2	92.9 (Norway)
Time (years)	1.5	2.7	1.7	0.4 (Ireland)
Cost (% of estate)	15.0	14.0	9.3	1.0 (Norway)
Outcome (0 as piecemeal sale and 1 as going concern)	0
Strength of insolvency framework index (0-16)	5.0	6.3	11.9	None in 2018/19

	Answer	Score
Strength of insolvency framework index (0-16)		5.0
Commencement of proceedings index (0-3)		2.0
What procedures are available to a DEBTOR when commencing insolvency proceedings?	(b) Debtor may file for liquidation only	0.5
Does the insolvency framework allow a CREDITOR to file for insolvency of the debtor?	(b) Yes, but a creditor may file for liquidation only	0.5
What basis for commencement of the insolvency proceedings is allowed under the insolvency framework? (a) Debtor is generally unable to pay its debts as they mature (b) The value of debtor's liabilities exceeds the value of its assets	(a) Debtor is generally unable to pay its debts as they mature	1.0
Management of debtor's assets index (0-6)		2.0
Does the insolvency framework allow the continuation of contracts supplying essential goods and services to the debtor?	No	0.0
Does the insolvency framework allow the rejection by the debtor of overly burdensome contracts?	No	0.0
Does the insolvency framework allow avoidance of preferential transactions?	Yes	1.0
Does the insolvency framework allow avoidance of undervalued transactions?	Yes	1.0
Does the insolvency framework provide for the possibility of the debtor obtaining credit after commencement of insolvency proceedings?	No	0.0
Does the insolvency framework assign priority to post-commencement credit?	(c) No priority is assigned to post-commencement creditors	0.0
Reorganization proceedings index (0-3)		0.0
Which creditors vote on the proposed reorganization plan?	N/A	0.0
Does the insolvency framework require that dissenting creditors in reorganization receive at least as much as what they would obtain in a liquidation?	No	0.0
Are the creditors divided into classes for the purposes of voting on the reorganization plan, does each class vote separately and are creditors in the same class treated equally?	No	0.0
Creditor participation index (0-4)		1.0
Does the insolvency framework require approval by the creditors for selection or appointment of the insolvency representative?	No	0.0
Does the insolvency framework require approval by the creditors for sale of substantial assets of the debtor?	No	0.0
Does the insolvency framework provide that a creditor has the right to request information from the insolvency representative?	No	0.0
Does the insolvency framework provide that a creditor has the right to object to decisions accepting or rejecting creditors' claims?	Yes	1.0

Note: Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

Employing Workers

Doing Business presents detailed data for the employing workers indicators on the *Doing Business* website (<http://www.doingbusiness.org>). The study does not present rankings of economies on these indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business.

The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure

Hiring

(i) whether fixed-term contracts are prohibited for permanent tasks; (ii) maximum cumulative duration of fixed-term contracts; (iii) length of the maximum probationary period; (iv) minimum wage; (v) ratio of minimum wage to the average value added per worker.

Working hours

(i) maximum number of working days allowed per week; (ii) premiums for work: at night, on a weekly rest day and overtime; (iii) whether there are restrictions on work at night, work on a weekly rest day and for overtime work; (iv) length of paid annual leave.

Redundancy rules

(i) whether redundancy can be basis for terminating workers; (ii) whether employer needs to notify and/or get approval from third party to terminate 1 redundant worker and a group of 9 redundant workers; (iii) whether the law requires employer to reassign or retrain a worker before making worker redundant; (iv) whether priority rules apply for redundancies and reemployment.

Redundancy cost

(i) notice period for redundancy dismissal; (ii) severance payments, and (iii) penalties due when terminating a redundant worker. Data on the availability of unemployment protection for a worker with one year of employment is also collected.

Case study assumptions

To make the data comparable across economies, several assumptions about the worker and the business are used.

The worker:

- Is a cashier in a supermarket or grocery store, age 19, with one year of work experience.
- Is a full-time employee.
- Is not a member of the labor union, unless membership is mandatory.

The business:

- Is a limited liability company (or the equivalent in the economy).
- Operates a supermarket or grocery store in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Has 60 employees.
- Is subject to collective bargaining agreements if such agreements cover more than 50% of the food retail sector and they apply even to firms that are not party to them.
- Abides by every law and regulation but does not grant workers more benefits than those mandated by law, regulation or (if applicable) collective bargaining agreements.

Employing Workers - Iran, Islamic Rep.

Details - Employing Workers in Iran, Islamic Rep.

	Answer
Hiring	
Fixed-term contracts prohibited for permanent tasks?	No
Maximum length of a single fixed-term contract (months)	No limit
Maximum length of fixed-term contracts, including renewals (months)	No limit
Minimum wage applicable to the worker assumed in the case study (US\$/month)	371.2
Ratio of minimum wage to value added per worker	0.6
Maximum length of probationary period (months)	1.0
Working hours	
Standard workday	8.0
Maximum number of working days per week	6.0
Premium for night work (% of hourly pay)	35.0
Premium for work on weekly rest day (% of hourly pay)	40.0
Premium for overtime work (% of hourly pay)	40.0
Restrictions on night work?	No
Restrictions on weekly holiday?	No
Restrictions on overtime work?	No
Paid annual leave for a worker with 1 year of tenure (working days)	24.0
Paid annual leave for a worker with 5 years of tenure (working days)	24.0
Paid annual leave for a worker with 10 years of tenure (working days)	24.0
Paid annual leave (average for workers with 1, 5 and 10 years of tenure, in working days)	24.0
Redundancy rules	
Dismissal due to redundancy allowed by law?	Yes
Third-party notification if one worker is dismissed?	Yes
Third-party approval if one worker is dismissed?	Yes
Third-party notification if nine workers are dismissed?	Yes
Third-party approval if nine workers are dismissed?	Yes
Retraining or reassignment obligation before redundancy?	No
Priority rules for redundancies?	No
Priority rules for reemployment?	No
Redundancy cost	
Notice period for redundancy dismissal for a worker with 1 year of tenure (weeks of salary)	0.0
Notice period for redundancy dismissal for a worker with 5 years of tenure (weeks of salary)	0.0
Notice period for redundancy dismissal for a worker with 10 years of tenure (weeks of salary)	0.0
Notice period for redundancy dismissal (average for workers with 1, 5 and 10 years of tenure, in weeks of salary)	0.0
Severance pay for redundancy dismissal for a worker with 1 year of tenure (weeks of salary)	4.3
Severance pay for redundancy dismissal for a worker with 5 years of tenure (weeks of salary)	21.7

Severance pay for redundancy dismissal for a worker with 10 years of tenure (weeks of salary)	43.3
Severance pay for redundancy dismissal (average for workers with 1, 5 and 10 years of tenure, in weeks of salary)	23.1
Unemployment protection after one year of employment?	Yes

Business Reforms in Iran, Islamic Rep.

From May 2, 2018 to May 1, 2019, 115 economies implemented 294 business regulatory reforms across the 10 areas measured by Doing Business. Reforms inspired by *Doing Business* have been implemented by economies in all regions. The following are reforms implemented since *Doing Business* 2008.

✓ = *Doing Business* reform making it easier to do business. ✗ = Change making it more difficult to do business.

DB2020

✗ **Registering Property:** The Islamic Republic of Iran made transferring property more expensive by increasing the average taxable land value in Tehran City.

DB2019

✓ **Paying Taxes:** The Islamic Republic of Iran made paying taxes easier by introducing an online system for filing social security contributions, allowing the possibility of filing value added tax refund claims online, amending corporate income tax returns online and making payment of additional tax liability at the bank.

✓ **Trading across Borders:** The Islamic Republic of Iran made exporting and importing easier by enhancing the national trade single window.

DB2018

✓ **Getting Credit:** The Islamic Republic of Iran improved access to credit information by reporting data on credit payments from an automobile retailer.

DB2017

✓ **Trading across Borders:** The Islamic Republic of Iran made exporting and importing easier by improving and expanding the services offered by the national single window.

✓ **Enforcing Contracts:** The Islamic Republic of Iran made enforcing contracts easier by implementing electronic service of process.

DB2015

✓ **Starting a Business:** The Islamic Republic of Iran made starting a business easier by streamlining the name reservation and company registration procedures.

✓ **Getting Electricity:** The Islamic Republic of Iran made getting electricity easier by eliminating the need for customers to obtain an excavation permit for electricity connection works.

DB2013

✗ **Starting a Business:** The Islamic Republic of Iran made starting a business more difficult by requiring company founders to obtain a criminal record clearance to register a new company.

✓ **Protecting Minority Investors:** The Islamic Republic of Iran strengthened investor protections by requiring greater immediate disclosure of related-party transactions.

DB2011

✓ **Starting a Business:** The Islamic Republic of Iran eased business start-up by installing a web portal allowing entrepreneurs to search for and reserve a unique company name.

✓ **Getting Credit:** The establishment of a new private credit bureau improved access to credit information.

✓ **Enforcing Contracts:** The Islamic Republic of Iran made enforcing contracts easier and faster by introducing electronic filing of some documents, text message notification and an electronic case management system.

DB2010

✓ **Starting a Business:** The Islamic Republic of Iran simplified business start-up by introducing an electronic registration system.

✓ **Dealing with Construction Permits:** The Islamic Republic of Iran made dealing with construction permits easier by introducing electronic service offices in Tehran; streamlining the process of obtaining location approvals, building permits and building completion certificates; and reducing the time needed to obtain water and electricity connections.

✓ **Paying Taxes:** The Islamic Republic of Iran made paying taxes easier for companies by converting the sales tax into value added tax.

✓ **Trading across Borders:** The Islamic Republic of Iran reduced the time for exporting and importing through the installation of scanners at the port of Shahid Rajaei and the reorganization of customs clearance offices to separate inspections of special goods (chemicals, petroleum) from those of general goods.

Doing Business 2020 is the 17th in a series of annual studies investigating the regulations that enhance business activity and those that constrain it. It provides quantitative indicators covering 12 areas of the business environment in 190 economies. The goal of the *Doing Business* series is to provide objective data for use by governments in designing sound business regulatory policies and to encourage research on the important dimensions of the regulatory environment for firms.
