

Starting a Business Questionnaire – «DB_SB_Survey_Economy_FullName1»
www.doingbusiness.org

Dear Contributor,

We would like to thank you for your participation in the *Doing Business* project. Your expertise in the area of Starting a Business in «DB_sb_Survey_Economy_NoCity» is essential to the success of the *Doing Business* report, one of the flagship publications of the World Bank Group that benchmarks business regulations in 190 economies worldwide. The Starting a Business indicator, which measures the number of procedures, time, cost and paid-in minimum capital requirement for a small and medium-size limited liability company to start up and formally operate, is one of the 11 indicator sets published by the *Doing Business* report.

The report attracts much attention around the world. The latest edition, *Doing Business 2018: Reforming to Create Jobs*, was the 15th in a series of annual reports measuring the regulations that enhance business activity and those that constrain it. It received over 10,000 media citations within just a week of its publication on October 31, 2017. Within that same period the *Doing Business* website was viewed over a million times and the report was downloaded over 15,000 times. One hundred and nineteen economies implemented a total of 264 reforms easing the process of doing business. Europe and Central Asia continues to be the region with the highest share of economies reforming – i.e. 79%, followed by South Asia and Sub-Saharan Africa.

Governments worldwide read the report with interest every year, and your contribution makes it possible for the *Doing Business* project to disseminate the regulatory best practices that continue to inspire their regulatory reform efforts. In 2016/17, 38 economies made changes to pre-registration and registration formalities captured by the Starting a Business indicator.

We are honored to be able to count on your expertise for *Doing Business 2019*. Please do the following in completing the questionnaire:

- Review the assumptions of the case study before updating last year's information in the questionnaire.
- Describe in detail any reform that has affected the areas of starting a business since June 1, 2017.
- Be sure to update your name and address if necessary, so that we can mail you a complimentary copy of the report.
- Kindly return the questionnaire to «SurveyAnalystName» at «SurveyAnalystEmail».

We thank you again for your invaluable contribution to the work of the World Bank Group.

Sincerely,

«SurveyAnalystName»

1. CASE STUDY ASSUMPTIONS

The Starting a Business indicators record all procedures officially required, or commonly done in practice, for an entrepreneur to start up and formally operate an industrial or commercial business, as well as the time and cost to complete these procedures and the paid-in minimum capital. These procedures include obtaining all the necessary licenses and permits and completing any required notifications, verifications or inscriptions for the company and employees with relevant authorities.

Please provide responses to the questions in sections 2 and 3 of the questionnaire based on the case study assumptions and information below.

You are setting up the following company:

Type of limited liability company	<ul style="list-style-type: none"> «DB_sb_CompanyType». The business has 5 owners (shareholders) and is 100% domestically owned.
Location	<ul style="list-style-type: none"> In «Survey_City».
Company size	<ul style="list-style-type: none"> Start-up capital: «Survey_Currency_Code» «DB_sb_StartupcapitalLCU» (equivalent to USD «DB_sb_StartupcapitalUSD»). Annual sales (turnover): «Survey_Currency_Code» «DB_sb_AnnualSalesLCU» (equivalent to USD «DB_sb_AnnualSalesUSD»). Number of employees: 10-50 employees (within 1 month of commencement of operations). All are nationals of «DB_sb_Survey_Economy_NoCity».
Activities	<ul style="list-style-type: none"> The business conducts general industrial or commercial activities, such as production or sale of goods or services to the public. The business does not qualify for investment incentives or any special benefits. The business does not perform foreign trade activities and does not handle products subject to a special tax regime, for example, liquor or tobacco. It does not use heavily polluting production processes.
Assets and office space	<ul style="list-style-type: none"> The business does not own real estate. It leases the commercial plant and offices. The amount of the annual lease for the office space is «Survey_Currency_Code» «DB_sb_AnnualLeaseLCU» (equivalent to USD «DB_sb_AnnualLeaseUSD»). The size of the entire office space is approximately 929 square meters (10,000 square feet).

3. THE BUSINESS START-UP PROCESS

For your convenience, last year's aggregate answers are included in this survey. They represent a **unified** answer based on the answers we received from various contributors. Thus, they may not match the specific answers that you or your colleagues provided last year.

If you feel that the unified answers do not reflect the current reality in your economy, kindly provide us with your own answers and a clear indication of the reasons for your different views.

Please describe in detail any change to the data and indicate when the change took effect. Please specify the reason why you think the data for this year should be different:

- (i) Correction: our unified answer is wrong and does not reflect the current practice in your economy;
- (ii) Reform: the different answer resulted from a modification of practice or law after June 1, 2017;
- (iii) Other: please specify.

Definitions

A **procedure** is any interaction of the company founder with external parties, for example, government agencies, lawyers, auditors or notaries. Interactions between company founders or between company officers and their employees are not considered separate procedures. Both pre- and post-incorporation procedures that are required for an entrepreneur to legally operate a business (**including procedures required after the company incorporation**) are recorded. If female entrepreneurs have to comply with additional requirements compared to male entrepreneurs, such additional requirements are included in the list of procedures and are marked as "applies to women only".

Time is recorded in **calendar days**, not working days. The time span for each procedure starts with the first filing of the application or request and ends once the company has received the final document, such as the company registration certificate or tax number (for example, it includes the time to make an appointment with a notary or any waiting time once the documents are filed). It is assumed that the entrepreneur has had no prior contact with any of the officials. Procedures that can be fully completed online and in less than 1 day are counted as half a day.

Costs include only **official fees and taxes**. Bribes are excluded. If possible, please indicate the relevant fee schedule or calculation formula (for example, as a percentage of the company's capital). Fees for professional services (such as those of notaries, lawyers or accountants) are included only if the company is required by law to use such services or if the use of professional services are solicited by the majority of entrepreneurs.

Paid-in minimum capital requirement is the amount that an entrepreneur is required to deposit in a bank or with a notary prior to or within 3 months of company registration.

Please note that all time and cost estimates for each procedure should be provided assuming that no bribe is offered to the officials. Similarly, please assume that no procedure can be skipped through a bribe payment.

3.1 Please update the data below, taking into account the case study assumptions provided in section 1.

- Please describe in detail any change to the data and indicate when the change took effect.
- When your answers differ from last year's information, please specify whether this is due to a correction, a reform or other reason.
